Infradebt endeavors to provide lower interest rate than existing lenders. The credit risk evaluation is based on the operating risk, financial risk, management risk and the security package available for the project.

Infradebt endeavors to refinance the infrastructure projects at competitive interest rates not exceeding 11% p.a.p.m. depending upon the credit risk profile of the borrower, loan tenor and loan structure. Interest rate above 11% p.a.p.m. may be charged, specific to certain transactions, subject to requisite approvals. Applicable interest rates are subject to change during the tenor of the facility considering the risk profile of the borrowers, market scenario, change in benchmark rate and/or regulatory changes. The rate of interest offered are on monthly, quarterly, semi-annual or annual basis. Infradebt offers both fixed and variable interest rates. For variable rates, the interest rates are also subject to resets at the periodicity that is same as Senior Lenders or as may be mutually agreed between Borrower and Infradebt. Further, in such cases benchmark rate will be mutually decided between Borrower and Infradebt. Interest rates are communicated to the borrower at the time of sanction/ availing of loan. For variable rates, both the Benchmark Rate and the Spread are communicated in writing to the client.

In addition to the interest rate, Infradebt would levy loan processing charges, legal fees on actuals, commitment fees, prepayment/ foreclosure charges etc. in line with that charged by the market. Loan Processing charges/ fees and prepayment charges shall be determined with appropriate ceilings as described below:

Based on negotiations with the clients, Infradebt would charge processing fees and charges on a case-to-case basis, with a ceiling of 2% of the loan amount plus applicable taxes. This ceiling will not be applicable in certain exceptional cases where all-in pricing is negotiated to be split between Interest rate and fees.

Prepayment/ foreclosure charges:

Infradebt raises liabilities primarily of minimum five year tenor at fixed interest rates with no prepayment options. In all lending proposals, where the prepayment/ foreclosure charges are negotiated and finalized upfront in the financing documents, prepayment charges shall be capped at 3% of outstanding loan amount plus applicable taxes.

Breakage cost:

In cases where prepayment is not explicitly envisaged in sanction/facility documents and Borrower(s) request for prepayment, Infradebt may at its discretion consider such requests subject to payment of break-cost i.e the loss of future income (based on negotiations with the clients).
